Machine defeats human

A Google computer victorious over the world's 'Go' champion

In the ultimate battle of man versus machine, humans are running a close second.

- AlphaGo won 4 / 5 games
- However, it uses
 - 1,202 CPUs & 176 GPUs

Driver license needed after 15 years?

- Tesla autopilot 2.0 data sharing policy

In order to do so, we need to collect short video clips using the car's external cameras to learn how to recognize things like lane lines, street signs, and traffic light positions. The more fleet learning of road conditions we are able to do, the better your Tesla's self-driving ability will become.
